Claim Objections

Claim 1 is objected to because of the following informalities: in the second from last line, "he" should be "the". Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. For claim 1, it is still unclear whether or not the drawer bottom and/or the drawer frame are to be claimed in combination with the connector components. In the preamble of the claim, only an arrangement of the components are positively claimed ("arrangement for connecting a drawer frame to a drawer bottom"); however, in the body of the claim, the drawer bottom and frame are positively recited (e.g. "the drawer frame having..." and "a support leg is engaged under the drawer bottom"). Furthermore, it appears that the frame and components comprise the same features, i.e. both include the same web, support leg, slot and claws. For examination purposes, the combination, i.e. the drawer bottom, components and frame, will be considered the claimed subject matter and the components and frame are being considered different features. For claim 7, it is unclear which component is being referred to, since plural components have been claimed previously. For claim 9, "the guide rail" lacks antecedent basis.

Allowable Subject Matter

Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action. (The allowable subject matter being the drawer frame having connector components, each with a vertical connecting web and a pair of parallel offset leg portions extending perpendicular with respect to the web. In the leg portions is a closed slot having fixing claws attached to its edges.)

Claims 2-14 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Response to Arguments

There are no arguments to respond to at this time.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

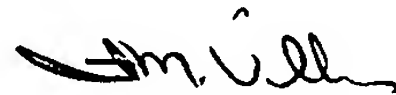

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
